**COGCC Comments**

Comment	User	Date
<span style="color: red;">Erosion occurring at gas meter run on east end of location. Refer to figures 1-6 in attached document. Close proximity to a county ditch. Location appears to have seen recent flooding causing location to become de-stabilized and erosion to occur at the base of the GMR. White styrofoam pieces littered around equipment.</span>	trujilloam	02/19/2016
<span style="color: red;">Repair and stabilize GMR, properly dispose of styrofoam trash debris and ensure site specific sediment and stormwater control BMPs are in place and maintained to mitigate stormwater and erosion concerns from pad and ditch by CA date of 3/31/2016</span>
