**COGCC Comments**

Comment	User	Date
OGCC inspectors were on location on 3/11/16 to inspect the condition of the well. The wellhead configuration is shown in the attached photo. OGCC inspectors were able to get to the wellhead in their trucks, however, roads out to the location would not allow any pulling unit or workover rig to access the wellhead, road will need to be worked on if a rig is to get to the wellhead. OGCC inspectors observed old steel piping to the northeast of the wellhead, photo attached.	rickardj	03/11/2016
