FOR MULTI-WELL PADS AND PRODUCTION FACILITIES WITHIN DESIGNATED SETBACK LOCATIONS ONLY:

- ☐ Check this box if this Oil and Gas Location has or will have Production Facilities that serve multiple wells (onl or offsite) and the Production Facilities are proposed to be located less than 1,000 feet from a Building Unit. *(Pursuant to Rule 604.c.(2)E.i., the operator must evaluate alternative locations for the Production Facilities that are farther from the Building Unit, and determine whether those alternative locations were technically feasible and economically practicable for the same proposed development.)*
- ☐ By checking this box, I certify that no alternative placements for the Production Facilities, farther from the nearest Building Unit, were available based on the analysis conducted pursuant to Rule 604.c.(2)E.i.

In the space below, explain rationale for siting the multi-well Production Facility(ies) that supports your Rule 604.c.(2)E.i determination. Attach documentation that supports your determination to this Form 2A.

Production facility will be 50' FWL of Road CR U and 175' South of the SW/NW quarter. A Waiver from the landowner in the NW/4 is attached since that wellsite is 115' from the property line.

OPERATOR COMMENTS AND SUBMITTAL

Comments There are no improvements within 1000' of the wellsite but there is an unnamed ephemeral stream of Gordon creek 58' West of the wellsite. The only improvement within 1000' of the tank battery site would be CR U. Tank battery will be located 50' FWL of CR U and 175' South of the SW/NW quarter.
