

Photo 1. View of Canada thistle (*Cirsium arvense*) and kochia (*Kochia scoparia*) infestation on soil stockpile along southern portion of the project area. Weeds need to be controlled at the appropriate time in 2016 but no later than seedhead maturity. Kochia debris needs to be removed.

Photo 2. View of the northern portion of the project area from the northwestern corner facing eastward.

Photo 3. View of the project area from the northwestern corner facing center. Ponding water does not appear to be snowmelt as it is also present in aerial photos from August and October 2015.

Photo 4. View of the western portion of the project area from the northwestern corner facing southward.
