Sec. 3 T1S R67W (NE/4 SE/4)  
Adams County, Colorado  
Surface: Fee  
Mineral Lease: Fee

Dear Mr. Osborne:

PetroShare Corporation (PetroShare) intends to apply to the Colorado Oil and Gas Conservation Commission (COGCC) to drill the above referenced wells at the described surface locations. COGCC Rule 318.A.a. stipulates that a Greater Wattenberg Area (GWA) well surface location must be within a 400' by 400' drilling window located at the center of each quarter-quarter section, or inside a 800' by 800' drilling window located at the center of each quarter section. The above referenced wells fall outside of these drilling windows. As you are aware, the surface locations were chosen in concurrence with your wishes, as the surface owner, in order to maximize future land use possibilities as well as utilize a natural tree barrier as noise and visual mitigation. □

Additionally, COGCC Rule 318A.c. stipulates that a GWA well surface location shall not be less than 50' from an existing well. As planned, these surface locations are greater than 50' from an existing well.

Per COGCC Rules, PetroShare is required to obtain surface owner approval of these locations as they do not conform to COGCC GWA Rules. Should you find these exceptions acceptable, please sign the space provided below.

By approving this matter, we anticipate COGCC granting PetroShare a location exception waiver to Rule 318A.a. and Rule 318A.c. allowing the location to be outside the COGCC GWA spacing rules.
