Dear Mr. Lepore:

PetroShare Corporation (PetroShare) respectfully requests that the Director grant an exception location to Colorado Oil and Gas Conservation Commission (COGCC) Rules 318A.a. and Rule 318A.c., for the above referenced well. The planned location was agreed upon by PetroShare and the surface owner through multiple conversations and meetings due to topography and to maximize future land use possibilities as well as utilize a natural tree barrier for noise and visual mitigation.

COGCC Rule 318.A.a stipulates that a Greater Wattenberg Area (GWA) well surface location must be within a 400' by 400' drilling window located at the center of each quarter-quarter section, or inside a 800' by 800' drilling window located at the center of each quarter section. The above referenced well falls outside of these drilling windows.

COGCC Rule 318A.c. stipulates that a GWA well surface location shall not be less than 50' from an existing well. As planned, these surface locations are greater than 50' from an existing well.

PetroShare requests the Director approve the proposed exception location. The surface owner acknowledges and agrees with the staked surface location of the well. Please see the enclosed waivers.
