Permit	Received and attached DOE approval letter. They take note of the proximity to the ½ mile radius, however they do not request any further review or information, and have no objection. They do request COGCC to include language in the permit for the applicant to accommodate DOE sampling.	3/8/2016 2:43:27 PM
Permit	Information sent to DOE as per requirements. Removed Lots 15 & 16 from lease description as per operator. Ready to pass pending OGLA & DOE approvals.	2/18/2016 1:52:51 PM

Engineer	Offset water well check: COGCC evaluated offset water wells within one mile of this proposed well's surface hole location. This information was used in addition to locally-available geophysical logs and hydrogeologic information to evaluate the adequacy of the operator's proposed surface casing setting depth. The deepest water well within one mile is 98 feet. Existing offset wells target the Mesa Verde formation. No mitigation required. Per operator, changed distance to wellbore belonging to another operator to 3700'.	2/9/2016 11:31:07 AM
Permit	Passed completeness.	2/4/2016 8:59:37 AM
