RE: Approval of Warning Letter #2193224 Corrective Action Deadline Extension Request

David,

As you are aware, the above-referenced Warning Letter (copy attached) required Wyman, Louis M d.b.a. Wyman, Inc. ("Operator") to pass a mechanical integrity test (MIT) or plug and abandon the Federal #42-33 well (API# 107-06038) and the Pagoda Unit #33-34P well (API# 107-05021) and file appropriate paperwork no later than 4/30/2016. Your 3/31/2016 email shown below requests a Corrective Action Deadline extension to 5/30/2016.

Your request for additional time to resolve the delinquent MIT issue cited in COGCC's Warning Letter, and referenced in the quoted e-mail text below, is granted. As noted in the COGCC Warning Letter, please remember to consider the following rules:

Rule 316B requires notice to the Director on a Form 42 at least ten (10) days prior to performance of conducting an MIT and submission of MIT results on a Form 21, within thirty (30) days after the test. A pressure chart shall accompany this Form 21 report.

Rule 311 requires Director approval of a Form 6 – Well Abandonment Report as a Notice of Intent to Abandon prior to performing the plugging and abandonment work and a second Form 6 – Well Abandonment Report as a Subsequent Report of Abandonment upon completion.

If Operator fails to complete the required Corrective Actions and provide documentation to the COGCC by the new requested deadline, staff will proceed to issue a Notice of Alleged Violation and pursue penalties for the issues cited in the Warning Letter.

Truly yours,

Dave

Hello Dave,

Re: Warning Letter #2193224

I would like to request a 30 day extension to complete the action required for wells: May 30, 2016 deadline:

API 107-06038 Federal #42-33
API 107-05021 Pagoda Unit #33-34P

ie. May 30, 2016 deadline:

The landowner at these two wells is very particular about maintaining his roads in very good condition. Considering that these wells are on the north slope and at about 8,000' elevation, I am concerned that we may have difficulty accessing these two sites. The BLM has not expressed any concern about this work or its timeliness.

Thank You
David L Wyman
