NFA for Griffiths 35C-20HZ Produced Water Release ~ NWNW S17-T1N-R67W ~ Weld County ~ Spill #2147441

Mr. Schneider,

COGCC has reviewed the No Further Action Status Request dated May 1, 2014, and concurs that no further action is necessary at this time. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be impacted, further investigation and/or remediation activities may be required at the site. Note that surface reclamation must meet the COGCC 1004 series rules.

Spill #2147441 has been closed in the COGIS database via Form 19A document #200439322. Please retain a copy of this email as verification of No Further Action required.

Thank you,

Jennifer Hussey, for

Chris Canfield, P.G.
