Subject: Spill Notification - Green-61S68W/14SWNE

Good Afternoon,

We had a State Reportable Release at the location listed below. More than 5 barrels of oil was released inside unlined containment. The release appears to have originated from a hole near the base of the tank. The final approximate volume released and cause of the release will be further addressed in a forthcoming Form 19 Initial Release Report. Please let me know if you have any questions.

Green-61S68W/14SWNE
Location ID: 320310
SWNE-14-1S-68W

Thanks,

Erik Mickelson, PG
