Operator Comments:

While reviewing paperwork submitted for the remediation #s 8583 & 8581, we noticed the supporting documents to complete this pit remediation (8580) were not filed. Proper testing was performed prior to backfill, with results below Table 910-1 values. We apologize for the delay submitting these results to the Commission.

Also - REM #7933 was opened by Whiting to review pit closure compliance in the Sulphur Creek field. The four pits requiring remediation have now been completed (8579, 8580, 8581, & 8583) and the original remediation project (7933) should be closed.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
