To: "Noto - DNR, John" <john.noto@state.co.us>, "rebecca.treitz@state.co.us" <rebecca.treitz@state.co.us>

Our Drilling Engineer can agree to this. Please use the BMP below:

Drilling Operations - Encana shall sufficiently shield or enclose all flares used during drilling operations to prevent the flame from being visible beyond the boundaries of the Oil and Gas Location. Temporary flaring that cannot comply with this COA because of upset conditions, and because it is necessary in order to mitigate safety risks, must be documented and the notifications in Rule 317 will apply. This information will be provided to COGCC within 48 hours of being requested.

--

Thank you for all your help.

Toby
