Re: **Stimulation Setback Consent, Rule 317.s.**  
Rio-LA 6F-204  
NWNW, Section 6 T1S R67W  
Adams County, Colorado

To Whom It May Concern,

PDC Energy, Inc. ("PDC") hereby requests a GWA Minimum Interwell Distance waiver from Synergy Resources Corporation, the offset operator of the following wells that is estimated to be closer than 150' to the subject well.

**Beisel Unit 1 (05-001-07108, SWNE) which is located in Section 1 T1S R68W**

Pursuant to the following Colorado Oil and Gas Conservation Commission ("COGCC") Rule 317.s.

***Statewide Fracture Stimulation Setback:*** No portion of a proposed wellbore's treated interval shall be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed and written consent of the operator of the encroached upon wellbore. The signed written consent shall be attached to the Application for Permit-to-Drill, Form 2 for the proposed wellbore.

***The following BMP will be applied to the permit:*** Prior to drilling operations, Operator will perform an anti-collision scan of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision scan will include definitive MWD or gyro surveys of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify bottomhole location. The proposed well will only be drilled if the anti-collision scan results indicate that there is not a risk
