COMMENTS:

Doc #6752000343

Need to request extension for weed control inside berm due to numerous recent storms in area. We need to move the equipment in for remediation at the time that the other wells are dried out, so they can all be done at once.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

Operator Comments:

Inspector commented last well production date was 12/2013. This well was temporarily shut-in, but has been producing all year. The reason it was not running on the inspection date was because the Xcel pipeline was damaged in the storm and the damaged location had not been located. The wells could not be restarted until the damaged pipeline section was located to be sure gas was not being sent to the leak.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
