Inspector Comment:

COGCC Integrity Inspector Joe Maclaren performed an engineering (flowline only) field inspection at this location on April 12, 2016. This field inspection was conducted in response to a form 19 report Doc # 401024171 filed with the COGCC on 4/7/16. This spill report states that during operation of the flowline at the Murphey #1 location, a leak was detected. The repair work and remediation were completed at the time this field inspection was conducted. The equipment/ flowline section and comment sections of this report outline additional details. Photos have been uploaded and can be accessed via link(s) at end of report.

Type: Flow Line	# 1	Satisfactory/Action Required:
Comment	Leak occurred on the flowline running between wellhead and separator. During operation of the flowline a corrosive hole formed causing the unintentional release. The damaged portion of the flowline was removed and 2-2 3/8 inch reducers were welded onto schedule 80 2 inch steel line as documented on the supplemental spill report Doc #401028624 filed with COGCC on 4/15/16.
