RE: Approval of Warning Letter #2193183 Corrective Action Deadline Extension Request

Deb,

As you are aware, the above-referenced Warning Letter (copy attached) required Mustang Resources, LLC ("Operator") to pass a mechanical integrity test (MIT) or plug and abandon the Federal #5-35 well (API# 081-06818) and file appropriate paperwork no later than 4/30/2016. Your 4/18/2016 email shown below requests a Corrective Action Deadline extension to 8/31/2016. Your request for additional time to resolve the delinquent MIT issue cited in COGCC's Warning Letter, and referenced in the quoted e-mail text below, is granted. As noted in the COGCC Warning Letter, please remember to consider the following rules:

Rule 316B requires notice to the Director on a Form 42 at least ten (10) days prior to performance of conducting an MIT and submission of MIT results on a Form 21, within thirty (30) days after the test. A pressure chart shall accompany this Form 21 report.

Rule 311 requires Director approval of a Form 6 – Well Abandonment Report as a Notice of Intent to Abandon prior to performing the plugging and abandonment work and a second Form 6 – Well Abandonment Report as a Subsequent Report of Abandonment upon completion.

If Operator fails to complete the required Corrective Actions and provide documentation to the COGCC by the new requested deadline, staff will proceed to issue a Notice of Alleged Violation and pursue penalties for the issues cited in the Warning Letter.

Truly yours,

Dave

David D. Andrews, P.E., P.G.  
Engineering Supervisor - Western Region
