**Subject:** RE: Spill Notification - HSR-63N66W13SENW

Good Morning,

We had a State Reportable Release at the location listed below. The release appears to be related to a failure and the water dump line associated with a partially buried produced water vessel. Results from a shallow groundwater sample were received on February 9, 2016 and indicated that the sample exceeded COGCC Table 910-1 concentration levels. Further information will be provided in a forthcoming Form 19 Initial Release Report. Please let me know if you have any questions. Thank you,

HSR-63N66W13SENW  
Location ID: 326972  
SENW-13-3N-66W
