

**Kinder Morgan CO<sub>2</sub> Co., NWNW Section 33, T37N, R17W, N PM, Montezuma County, Colorado, Form 27 Conditions of Approval (COAs)**

**Conditions of Approval:**

COGCC approval is contingent on operator providing notice to SW Environmental Protection Specialist Jim Hughes, [jimo.hughes@state.co.us](mailto:jimo.hughes@state.co.us) or 970-903-4072 a minimum of 72 hours prior to conducting field operations.

Conditionally approved, however, additional information or activities may be required during the course of remediation/reclamation.

The operator shall collect discrete soil samples to adequately characterize impacted material. Composite samples will NOT be accepted for this purpose. Current COGCC Rules and Regulations regarding pit closures and clean-up standards shall be applied, specifically, but not limited to, the 900 and 1000 series rules.

Should impacted material be discovered, regardless of size, the operator shall document the source and location, the impacted media and the extent of impact, how and when the operator plans to remediate the impacts, the final disposition of any impacted material removed from the location, as well as analytical results from confirmation samples.

Boreholes shall be abandoned per the Colorado Division of Water Resources Water Well Construction Rules.

If any impacted material generated during investigation is temporarily stored on adjacent well pad per COGCC rules and regulations, a Form 4 Sundry Notice shall be submitted by the Operator stating the reason and estimated timeline proposed for the storage of impacted material.

Surface reclamation must meet the COGCC 1000 series rules. Approval of this Form 27 does not imply approval of the reclamation plan submitted by the operator. The operator shall contact the COGCC regional reclamation specialist (Catherine Roy) regarding compliance with 1000 series Rules.
