Shaye,

COGCC is in the process of reviewing the Form 2A for Norden 27N-14HZ (doc no 401026666). The distance to the nearest Building and Building Unit from a well is listed at 652 feet on the Form 2A and at 637 feet on the location drawing. Please provide the correct distance. Also, will any of the water-based drill cuttings be land applied on the surface owner's property?

Thank you,

Rebecca

Hi Rebecca,

The location drawing lists the measurement from the 2A well, the NORDEN 27N-14HZ, which is 652'. This well is in the center of the pad and therefore, is not the closest well to the BU. Where are you seeing 637' on the location drawing?

The NORDEN 28N-14HZ is the closest well to a building unit which is 637'.

I am looking into the water-based drill cuttings and will get back to you as soon as possible on this.

Thank you,

Shaye

Hi Rebecca,

The water-based drill cuttings will not be land applied on the surface owner's property.

Please let me know if you have any additional questions.

Thank you,

Shaye
