Weld County, Colorado

Dear Mr. Burge:

Kerr-McGee Oil and Gas Onshore LP plans to drill the listed oil and gas wells from the above described surface locations. Records indicate that half interest in the above described lands is owned by John Robert Burge and half interest is owned by Janice J. Hulbert.

Rule 318A of the Colorado Oil and Gas Commission's Rules and Regulations requires the well be drilled in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter, or a square with sides eight hundred (800) feet in length, the center of which is the center of any quarter. Rule 318A of the Colorado Oil and Gas Commission's Rules and Regulations also requires any new twinned well be located 50' or less from an existing oil and gas well. We will drill the wells at the above described location, but we will need this waiver as this location is more than 50' from the existing well and falls outside the legal drilling window. Kerr-McGee Oil and Gas Onshore LP reserves the right to change any of the well names listed above at its discretion without further notice.

Please waive both of the above referenced requirements showing your approval by signing below. This waiver may be executed in any number of counterparts, each of which shall be deemed an original instrument but all of which together shall constitute one and the same instrument. Should you have any questions, please contact our office. Thank you for your consideration.

Thank you,
KERR-MCGEE OIL AND GAS ONSHORE, LP

Katherine Rushing
Landman

We waive the above requirement and approve the above described location.
