Description

1	Planning	In compliance with Rule 317.p the first well that is operationally feasible on the Parachute Creek 5A pad will be logged with an open-hole Resistivity Log and Gamma Ray Log from TD into the surface casing. All wells on the pad will have a Cement Bond Log with cased-hole Gamma Ray run on the production casing. The Form 5 Completion Report will list all the logs run in the subject well and identify the well that was logged with the open-hole Resistivity Log.
2	Drilling/Completion Operations	Caerus Operating LLC will adhere to the COGCC Policy for Bradenhead Monitoring effective May 29, 2012.

User Group	Comment	Comment Date
Final Review	Zone Type not checked. Added "Single Zone"	6/10/2016 10:44:38 AM
Permit	Corrected ground elevation from 5585.7 to 5586 and notified operator. Corrected distance to public road from 396' to 1464' to agree with correction made on Form 2A. Final review complete.	5/9/2016 8:29:12 AM
Engineer	Offset water well check: COGCC evaluated offset water wells within one mile of this proposed well's surface hole location. This information was used in addition to locally-available geophysical logs and hydrogeologic information to evaluate the adequacy of the operator's proposed surface casing setting depth. The deepest water well within one mile is 96 feet. Offset Well Evaluation: Existing offset oil and gas wells within 1,500 feet of this wellbore meet standards. No mitigation required. Deleted operator submit comment. Changed distance to nearest wellbore owned by another operator to 200' measured in plan view per operator to Chevron GM 32-17. Distance in COGIS measured as 88'. Anticollision scan is not required as the separation in three dimensions is much greater than 150'.	5/25/2016 2:43:27 PM
Permit	Corrected that minerals beneath the location will not be developed from yes to no with operator agreement. Corrected distance to lease line from 97' to 128' as directed by operator and verified with Petra Program. Corrected ground elevation footage from 5585.7 to 5586 and notified operator. Ready to pass.	5/13/2016 11:31:39 AM
Permit	Updated survey measurement date per operator request. Imported attached directional data per operator request.	5/5/2016 3:48:10 PM
