Inspector Comment:

This is an interim reclamation inspection regarding sections of the access road on a shared tank battery location between two operators. A similar inspection report will be sent to all operators at this location. The operators may need to coordinate efforts to resolve issues to bring the location into compliance. Also, the tank batteries from both operators do not have Location IDs in the COGCC database so the closest, related active well sites were used to generate the inspection report.

|--------------------|------------------------------|---------|--|------------|
| Type | Satisfactory/Action Required | comment | Corrective Action | Date |
| Access | ACTION REQUIRED | | 1) Need to repair ruts around west and southwest of tank battery location before repairing widened access road 2) Need to repair widened access road and return it to its original condition. May need to wait until the later end of the corrective action date of 8/10/2016 to perform the work because the area will need to be reseeded. Reseeding later will allow for more favorable conditions and better success of revegetation. Refer to attached photos in Document #682400844. | 08/10/2016 |
