Subject: Re: Foster State Drill Cuttings soil sampling TOMORROW NIGHT

To: Helen Trujillo <htrujillo@rbayless.com>

Cc: Kris Neidel - DNR <kris.neidel@state.co.us>

Helen- I will not be available, however, for a supplemental report, Bayless should include: discrete sampling and NOT composites, photo documentation of the sampling, GPS of the sampling location(s), brief description of observations made of the sampling, notes of the sampling include depth of sample(s) collected and any other field information that would support the sampling efforts. The supplemental should also include the completed laboratory analytical report with a summary of findings.

Thanks for heads up and apologize that COGCC will not be able to witness the sampling.

Thanks
Alex

Helen,

Please provide the API number.

Thanks

Alex

Hi Alex,

I just sent an email to Kris Neidel and received an "out of office" message. Are you available, per chance?

Hi Kris!

Our engineer, John Thomas, will be at the BLM office in the area tomorrow and wants to take the Foster State drill cuttings samples tomorrow night. John knows you want to witness the sampling – are you available after 5pm tomorrow? (His meeting should end by then).

Thanks for your help!

Helen
