Bob,

Maralex has yet to send in the required information (ie Form 27) for remediating the Spill/Release referenced below and closing the pit to the COGCCs current 900-Series Rules. I have cc'd (Engineering Manager) and Jeremy Ferrin (Enforcement Officer) that have been working on the SI and MIT issues.

Good morning,

I am the BLM PE for this area. Maralex has several wells shut in due to their non use (inability?) of the subject evap pit.

Please update me on where the COGCC is in the process. I believe BLM was standing back with the thought that COGCC had the most clear authority for the permitting.

Thanks

Bob Hartman
