

A photograph of an oil well site. In the foreground, a red metal safety enclosure surrounds a wellhead. A solar panel is mounted on a pole above the wellhead. The background shows a large, dark, tilled field under a clear blue sky, with several power line towers visible in the distance.

Mayer 13-34 well - Recently worked soils  
in background with good incorporation of  
drilling fluids (123-21627)
