**RE: Water Supply Sampling
SRC Gies Well Pad**

Dear Mr. and Mrs. Presgrove:

The purpose of this letter is to inform you that Synergy Resources Corporation (Synergy) is seeking access to your water well for a follow-up sample following the drilling of an oil and gas production well in your area. All of Synergy's operations are subject to regulations as administered by the State of Colorado Oil and Gas Conservation Commission (COGCC).

The COGCC requires that a water well meeting Rule 318A.f.(2) C rule criteria in the vicinity of the drilling location be tested for baseline water quality. We are requesting your authorization for LT Environmental, Inc. (LTE) to collect a sample from your water well and submit the sample for analysis by an independent laboratory. A copy of the laboratory analytical results from your water well sample will be provided to you and the COGCC. The analytical results will be publicly available on the COGCC database. The costs for sampling and analysis will be paid by Synergy. We would appreciate a response from you within five days.

Please sign and mail the enclosed pre-addressed and stamped postcard to either authorize or to decline sampling of your water well, receipt # 0293134 located in Section 15 Township 7N Range 65W in Weld County, Colorado. Please include a telephone number so that we can coordinate the sampling event. Once we receive your response, Synergy or a representative from LTE will contact you to schedule a convenient time to sample your water well. Thank you in advance for your cooperation.

Sincerely,

LT ENVIRONMENTAL, INC.
