COMMENTS:

This well has been drilled, completed and is now producing. SandRidge E&P respectfully requests the right to flare due to several circumstances: 1. The closest/most practical pipeline tie-in point is over 100 miles away. 2. Construction of pipeline to said tie-in point will take over a year to obtain ROW, permits and construct along with costing over 50 million. SandRidge has though started this process to construct this gathering pipeline reach to market tie-in. 3. ~200-300 mcf/d will be flared for the first year then decline. BTU content of the gas is 1457 (real dry gas) and 1431 (water saturated gas) H2S = 0 ppm - analysis attached. 4. SandRidge has compiled with Rule 805 b. (1.) 5. SandRidge will use CDPHE approved flaring method. SandRidge has an "in-house" air compliance team and has a local, Colorado based air/environmental advisory company to assist with monitoring of air & environmental compliance.

**CASING AND CEMENTING CHANGES**

Casing Type	Size	Of	/	Hole	Size	Of	/	Casing	Wt/Ft	Csg/LinTop	Setting Depth	Sacks of Cement	Cement Bottom	Cement Top

**H2S REPORTING**

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: \_\_\_\_\_ in ppm (parts per million) Date of Measurement or Sample Collection \_\_\_\_\_

Description of Sample Point:

Absolute Open Flow Potential \_\_\_\_\_ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: \_\_\_\_\_

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: \_\_\_\_\_

Title: Regulatory Supervisor Email: slaird@sandridgeenergy.com Date: 6/28/2016

Based on the information provided herein, this Sundry Notice (Form 4) complies with COGCC Rules and applicable orders and is hereby approved.

COGCC Approved: BURGER, CRAIG Date: 7/11/2016

**CONDITIONS OF APPROVAL, IF ANY:**

**COA Type**

**Description**

- 1) Comply with all requirements of Rule 912, including monthly reporting of flared volumes (on Form 7) and notifications to local emergency dispatch or the local government designee.
- 2) Submit annual updates (requests to flare) to COGCC on Form 4s (Sundry Notices), including all information specified in COGCC's "Notice to Operators, Rule 912 Venting or Flaring Produced Natural Gas - Statewide."
- 3) Comply with any Colorado Department of Public Health and Environment, Air Pollution Control Division rules or requirements for all atmospheric discharges.
- 4) An enclosed flare shall be used, unless an open flare is specifically allowed by CDPHE's Regulation 7.
- 5) Within 30 days of approval of this form, submit an Electronic Data Deliverable (EDD), prepared by the laboratory that performed the gas analysis attached to this form. The EDD shall be submitted with a new Form 4, in the format specified on COGCC's website, located in Help => Environmental => COGCC EDD Information.

**General Comments**

<b>User Group</b>	<b>Comment</b>	<b>Comment Date</b>
Engineer	Per operator: "working on a small facility to process gas into natural gas liquids but it's still in the planning phases. We'd also like to construct a larger scale facility to generate power and send out through transmission lines but that process will take longer to plan, permit, design, construct, etc than our pipeline we are working on." COGCC will request update with timeframe on next annual update if system is not in place.	7/11/2016 11:38:04 AM
Environmental Data	The analytical data provided by the operator has been entered in the COENV database.	7/7/2016 1:59:47 PM
Engineer	Emailed operator for discussion of options of gas to generate electricity, gas processing to natural gas liquid or other options. Added environmental data review task.	7/7/2016 9:47:50 AM
