

# Final Reclamation Inspection

**Photo 1.** Aerial imagery from 12/2/2002, illustrating total areas that have not been reclaimed per Rule 1004 (highlighted in red). Large portions of the well location are infested with a List B Colorado Noxious weed- see following photos.

# Final Reclamation Inspection

**Photo 2.** Photo taken from well location, facing West. Need to reclaim location per Rule 1004. A seeding attempt was made but gravel was not removed preventing proper vegetative establishment.

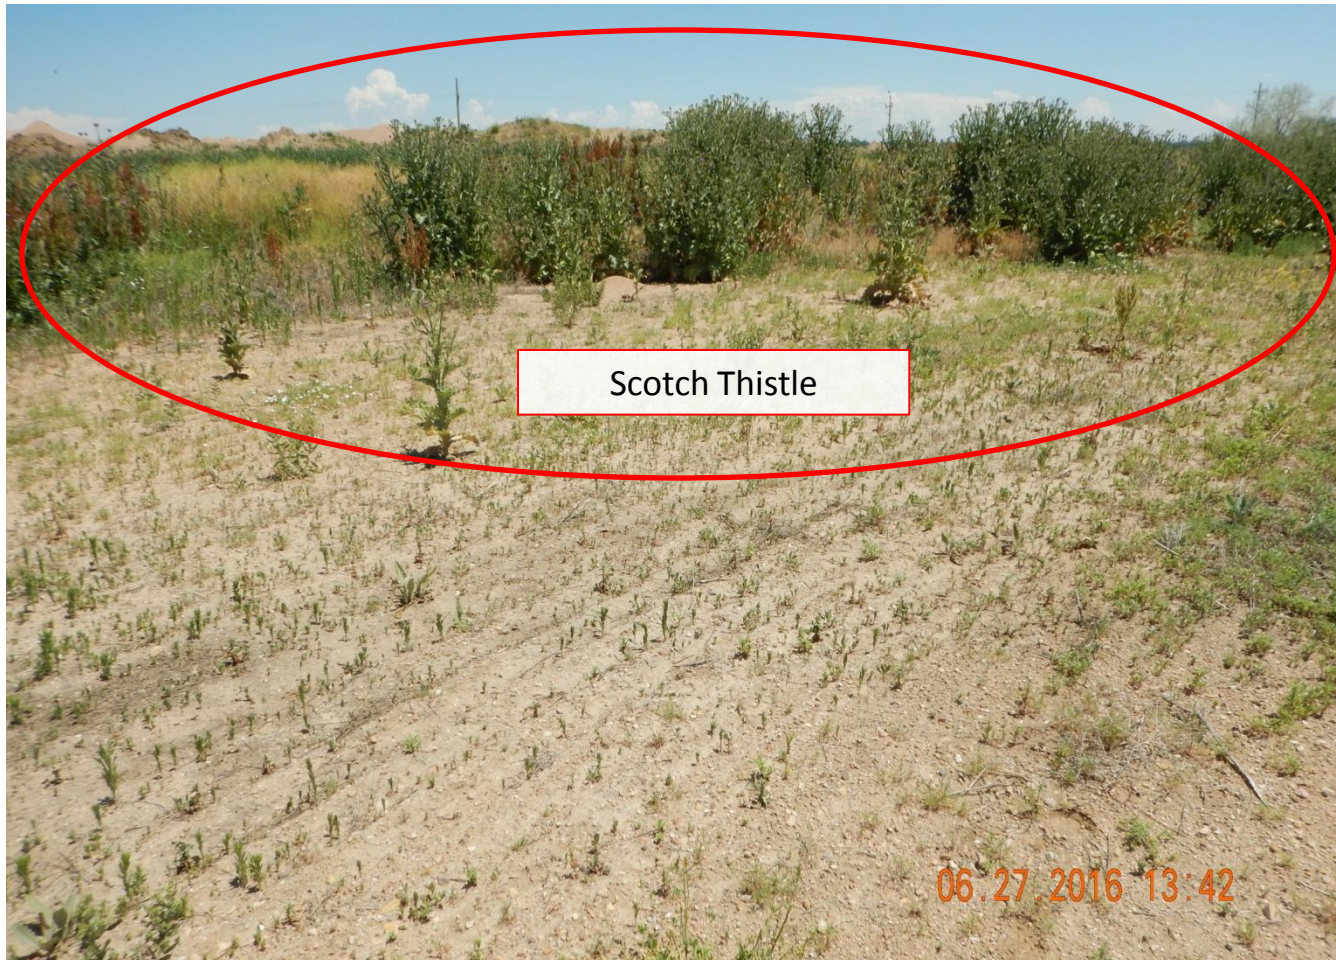

# Final Reclamation Inspection

**Photo 3.** Photo taken from well location, facing North. Need to reclaim location per Rule 1004. A seeding attempt was made but gravel was not removed preventing proper vegetative establishment.

# Final Reclamation Inspection

**Photo 4.** Photo taken from well location, facing East. Need to reclaim location per Rule 1004. A seeding attempt was made but gravel was not removed preventing proper vegetative establishment.

# Final Reclamation Inspection

**Photo 5.** Photo taken from well location, facing South. Need to reclaim location per Rule 1004. A seeding attempt was made but gravel was not removed preventing proper vegetative establishment.

# Final Reclamation Inspection

**Photo 6.** Photo taken from northeast well location. Need to remove trash per Rule 603.f.

# Final Reclamation Inspection

**Photo 7.** Photo taken from southern well location, facing North. A List B Colorado Noxious weed has infested large portions of the location- Scotch thistle (*Onopordum acanthium*)- and needs to be removed from location by 7/26/2016.

# Final Reclamation Inspection

**Photo 8.** Photo taken from well location illustrating equipment and debris that still remains and needs to be removed per Rule 1004.
