COGCC Comments

Comment	User	Date
Submit a Form 4 when corrective actions are completed. Include photographs or other documentation showing completion of corrective actions required in this inspection.	CostaR	07/12/2016
The Diffuse and Spotted knapweed was beginning to develop and disperse seed. These plants will need to be collected and removed to prevent seed dispersal. Weed control needs to be performed as soon as possible to prevent seed dispersal. Other control methods will need to be utilized and continued efforts may be needed to adequately control noxious weed growth.	CostaR	07/12/2016
