OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

PUBLIC NOTICE
OF PROPOSED UNDERGROUND INJECTION
CONTROL PERMIT

PURPOSE OF PUBLIC NOTICE:

The purpose of this notice is to solicit public comment on the Savage 8A-794-SWD disposal well, a Class II injection permit submitted by Caerus Piceance LLC. The Savage 8A-794-SWD disposal well will be drilled at a location 532 feet from north line and 1216 feet from east line of NWNE Section 8, Township 7 South, Range 94 West, 6th P.M., Garfield County, Colorado.

BACKGROUND

Class II injection wells are permitted and regulated in such a manner as to prevent the contamination of underground sources of drinking water and to ensure fluid emplacement and confinement within the permitted injection zones. Class II injection wells are permitted to inject waste generated from oil and gas exploratory and production operations. Caerus Piceance LLC has proposed to inject these fluids into the Ohio Creek Formation in the Savage 8A-794-SWD well through a cased-hole completion at depths of approximately 5,068 to 5,268 feet.

Public comments are encouraged and will be accepted, in writing at the Commission for a period of thirty (30) days after publication of this notice. If any data, information, or arguments submitted during the public comment period appear to raise substantial questions concerning proposed injection well permit, the Director may request that the Commission hold a hearing on the matter.

Additional information on the operation of the proposed injection well may be obtained at the Commission office.
