Comments:

The Witcher 1-21 was P&A in 6/94. The last inspection was in 5/98 (inspection report attached) and the inspector (R. VanSickle) noted the site was still too bare. The site is now completely covered in grass, etc. as noted on the attached Google Earth imagery dated 11/2013, and the attached image from the COGCC website dated 2015. The site is fairly remote and is near multiple two tracks that are used by bird and elk hunters. We are requesting that the well be removed from our bond. Thank you
