Gene,

Attached is the Form 27 for the above referenced project, approved with the following conditions:

1. Collect a minimum of four discrete soil samples from the sidewalls of the excavation and one soil sample from the base of the excavation for BTEX and TPH laboratory analysis.
2. Submit soil disposal manifests with the excavation report.
3. If soil is to be treated on site, submit a Form 27 detailing the treatment process and sampling and reporting frequency.

Please refer to Rem #9401 on all future correspondence regarding this project.

Thank you,

Robert J. Young  
Environmental Protection Specialist
