Cc: "Allison - DNR, Rick" &lt;rick.allison@state.co.us&gt;

Dene and Butch,

Attached are the analytical reports and an analytical table with all of the confirmation samples obtained at the FTC Battery. All but one pile, A4, have passed Table 910-1 DRO concentrations. We will continue to treat this pile while we continue to shred the original stockpile of untreated soil. Butch, the piles that were sampled yesterday (with the exception of A4), are ready to go into the hole. These are piles A6, A7, A8, A9, A10, A11, and A21. Let me know if you have any questions.

Regards,

**Colby Sterling****District Manager**
