13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The Federal 299-26-1 well is on the idle well list. Based on results from the Federal 299-27-5 and 299-27-6 nearby, WPX Energy believes this well is a potential candidate for conversion to injection / Salt Water Disposal in the upper Mesaverde group (Ohio Creek and Upper Williams Fork).

WPX Energy is planning on moving forward with the conversion.

A full Underground Injection Control permit will be sent to the COGCC for approval as a Salt Water Disposal Well. We will provide BLM recompletion / conversion procedures for review and approval upon concurrent submittal to COGCC in July 2016.

14. I hereby certify that the foregoing is true and correct.
