Randy,

It is difficult to understand what the attached table means. Please provide a descriptive narrative of the work that was conducted at the Chivington Location including: tabulated analytical summary of sample results, corresponding locations of the samples collected, depth of which samples were collected, and a map/diagram illustrating the location of each of the samples. Additionally, the analytical report should include the the complete report provided by the analytical laboratory. All of the this information shall be included on a Form 27 (Supplemental) referencing the remediation number (REM 8333), Pit Facility ID 100600, and Location ID 312854.

You may prepare the narrative and attach it to the Form 27 as the Form itself does not allow for a detailed summary of information. All of this information shall then be attached to an eForm 4 Sundry.

Document 2232077 is an example of a Supplemental Form 27 and narrative report.

[5586](#) Projects 2232077 FORM 27 - NOTICE OF COMPLETION REPORT DATED 2/29/2012 [02/20/2013](#)

Any questions, please do not hesitate to contact either Kris or I.

Thanks  
Alex

Good afternoon,

Here are the sample results sorted by analyte type and listed with their appropriate Table 910-1 value. Analytes are in alphabetical order and samples are listed in ascending direction. There are 416 test results on 49 unique analytes.

Please do not hesitate to contact me if you have any questions or I can help you meet your goals.

Thanks,

**Randy Edelen, P. E.**
