Dear Owner:

Per the requirements of Rule 325 subparagraph (l) of the Colorado Oil and Gas Conservation Commission (COGCC), we are required to inform all surface and mineral owners ("owners" as defined in CRS 34-60-103(7)) within ¼-mile of the proposed well site, that Sandridge Exploration & Production LLC has applied to the COGCC for a permit to convert the existing well into a salt water disposal well. The well is located at 2,164' FSL 790' FEL (NE/4 SE/4) of Section 30 T7N R80W, Jackson County, Colorado.

Any person who would be directly and adversely affected or aggrieved by the authorization of the underground disposal of salt water into the injection zone (Dakota-Lakota formation), may file, within fifteen (15) days of this notice, a written request for a public hearing before the COGCC, provided such request meets the protest requirements specified in Rule 323 subparagraph (m).

Your cooperation concerning this matter is greatly appreciated; any additional information on the proposed application can be obtained from the COGCC.

Sincerely,

Andrea Gross
