Mr. Paine,

In response to your email dated August 16, 2016 (below), requesting an extension to the August 31, 2016 deadline for Remediation Project #9614—pit closure at the Antelope Farms #1-24 facility, the COGCC approves a **one-time** extension to September 30, 2016 to close the pit to the satisfaction of Rule 905 and the COA letter dated 4/18/2016.

Be advised that failure to complete the pit closure by the revised deadline of September 30, 2016 may result in enforcement action.

Thank you,
Steven J. Arauza, P.G.

Subject: Request Extension Fahey Oil & Gas

Steven Arauza,

This is Gilbert Paine w/Fahey Oil & Gas, we feel we might have a problem meeting the 8-31-16 Deadline on the closure of the pit on the Antelope Farms 1-24 facility # 104731 due to the turn around time at the lab, getting the test results of the samples. So we are asking that we might have an extension on that Deadline.

thanks
Gilbert Paine
