Inspector Comment:

This inspection conducted to follow up on complaint document number 200439616 and previous field inspection document number 685300617. This report contains comments see Lease Road, Good House Keeping, Interim Reclamation, and Storm Water Sections of report for additional details. Newly installed BMPs should manage stormwater run on/off for the location and prevent additional sediment migration problems associated with complaint. BMPs should be maintained and managed through self inspection to ensure their continued proper operation. All corrective actions were completed.

Tracking Num	Category	Assigned To	Description	Incident Date
200439616	STORMWATER BMPs	Labowskie, Steve	Sometime in the past few months the storm water containment on a BP well pad failed. BP visited the site on April 18, 2016 (Trenton Webber) and agreed to repair the berm and ditches as well as clean up the dirt washed onto the pad. I called 10 days later and was told the repair work was in a bidding process, thus far there has been no movement to repair the damage. We called Catherine Roy and were directed, but she feels she has no authority without a written complaint being filed... The well is the Frahm Federal Unit #1, located off CR 525 Bayfield, CO on the property of James and Mary T Fitzgerald.	06/03/2016
