I am fine with that – if circulation is maintained, the plug does not need to be tagged.

Thanks,
Diana

Diana,

We are currently plugging this well, getting ready to pump our Nio plug on Monday. Instead of using a CIBP at 7055', we would instead like to pump a balance plug (7055' – 6655'). We will tag this plug.

Please confirm this is acceptable,
Thanks,

Elizabeth Hunt
