Compliance Summary:QtrQtr: NESE Sec: 22 Twp: 35N Range: 20W**Inspector Comment:**

This is a final reclamation inspection. COGCC does not have an operator contact on record. This location is on federal surface that was recently acquired, and drilled/plugged while on fee. Document 633196 describes plugging the well on April 13, 1998. Followup correspondence on document 633195 indicates that this well was plugged by COGCC. Additional removal of wood debris was documented in a 1998 post plugging inspection. This inspection documents the current conditions on the location.
