Kris,

Good afternoon,

Attached is a photograph taken yesterday showing the recently turned cuttings piles (turned last week). We should have someone on-site today to take the six cuttings samples and three background samples for analysis. Once we have the analyses I'll submit a sundry notice requesting permission to bury the cuttings in the cut-bank of the well pad. We're hoping to get it done this month before the snow starts to fly.

I'll keep you posted.

Rick
