

## **Public Comments**

The following comments were provided by members of the public and were considered during the technical review of this application.

<b><u>No.</u></b>	<b><u>Comment</u></b>	<b><u>Comment Date</u></b>
1	If an MOU has not been obtained from Adams County then reject this request so that the LGD can be aware of this site and take local appropriate action.	01/05/2016
2	The roads along HWY7 are insufficient at this point to be able all the new development in the area.Handling the increased truck traffic along it would make it impossible for the current residents.	01/06/2016
3	The City of Thornton is in the process of reviewing and updating their current regulations on oil and gas development.Until the City Council completes this review, all new permits that are close enough to affect City of Thornton residents, use City of Thornton services, or require other services like possible right of ways for pipelines should be deferred until the City Council has completed this review and update.	01/06/2016
4	A community meeting needs to be held on this to notify homeowners within 1 mile before this permit should be approved.	01/06/2016
5	The government of Adams County is in the process of updating their current requirements with regards to oil and gas to include improved public input requirements, improved air quality monitoring and possibly their own inspector.All permits should be deferred until that review and update is completed.	01/06/2016
