## TestAmerica

THE LEADER IN ENVIRONMENTAL TESTING

[illegible]

TANK

PIT

SEPERATOR

The pit was originally 6 ft X 6 ft and 6 ft Deep it wa dug out to 12 ft Deep

and samples were taken 4ft off bottom or 8 ft below surface in the middle of the walls and # 5 sample was taken from the bottom

N  
W + E  
S

The second set of samples taken after digging it out more were taken from the South wall (#3) and the West wall (# 4) 4 feet below GL and Base sample was taken from surface 100 ft straight South of Seperator

X Base Sample
