General Comment:

On 9/29/2016 COGCC Environmental staff, Kris Neidel inspected location 336491. Weather was overcast, slightly rain and 50 degrees. Remediation Project 5614, closure of pit 417548 is still open in the COGCC database. The pit liner has been removed from the pit, it is still on location, in a bundle. Two sides of the pit has been removed such that the pit does not hold fluid. This inspection is intended to document Environmental concerns on location, any compliance issues raised in other inspections should be addressed by Operator.
