Operator Comments:

Cub Creek Energy respectfully requests "Confidential Status" for this well.
CCE plans to drill the well as a monobore with a water based mud system.
Additionally, a unique engineered fracture design will be used to stimulate the well.
Cub Creek believes that this drilling and stimulation program will produce a unique production profile and CCE plans to do extensive testing and data collection on the well.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
