Dave,

The COGCC has processed the form 27 for this site and assigned project/remediation #9854 for the clean-up work. Please use this project number on any future correspondence or submittals to the COGCC.

Please note that land farming is chosen as the preferred soils treatment action that the land farm activities will be inspected by COGCC staff during the duration and at the conclusion of the land farm actions.

If you or Terry have any question, please call or email.

Bob

Bob

Attached is the Form 27 for the closure of the unlined skim pit at the State 2-30 lease operated by HRM Resources II, LLC.

Can we landfarm the impacted material on this state lease?

Dave
