Comments

This well permit is being refiled due to expiration. The well pad has been partially constructed. There are no changes to the previously approved APD for the proposed SHL, BHL, drilling plan, casing and cement program, and mineral lease information. The previously approved well location plat and directional remain the same. The distance to nearest well completed in the same formation / permitted or existing well penetrating objective formation was measured to the producing Scott 31C-36-692 (05-045-11125). The distance from the proposed wellbore to the nearest wellbore belonging to another operator was measured to the producing Twin Creek 1-10B1 O1EB (05-045-19536). Please note the drilling fluids disposal, cuttings disposal, and WMP have been updated per Vanguard's drilling and completion operations. The attached WMP represents Vanguard's plans for the location.
