Scot,

Can you give me an update on the Haas 1 spill investigation for the relocation of the tank battery? This spill is approaching seven months since the date of discovery. If ground water has been impacted please submit a Form 27 with the most recent site investigation data.

If you have data for closure, please submit that on a Supplemental Form 19 requesting closure.

I understand this well has been sold to Extraction. If they have agreed to take responsibility for the release, please have them submit a Form 27 with a plan to do so.

Thank you,
Rick
