Extraction estimates the commencement of operations with heavy equipment to occur within 30 days, however, due to special circumstances, such operations will occur earlier. Extraction respectfully requests a Consultation, Meeting, and Comment Period Waiver from you, the surface owner.

As Surface Owner, you are welcome to submit written comments to Extraction, the Director of the COGCC, and/ or your Local Government Designee (LGD); a Contact Information list is provided herein for your reference. Pursuant to COGCC Rule 306, you are entitled to a consultation with the operator, if you should have any questions or wish to meet with the operator before oil and gas operations commence on the proposed location. You may appoint an agent on your behalf for purposes of subsequent notice, consultation or meetings. Such appointment can be made by contacting Extraction. Pursuant to COGCC Rules 305.c.(4) and 306.g., as Surface Owner it is your responsibility to give notice of the proposed operations to any tenant farmer, lessee or other party that may own or have an interest in any crops or surface improvements that could be affected by the proposed operations.
