Jan,

I have complete my review of the referenced Oil & Gas Location Assessment and have the following comments.

1) In the Facilities section you have indicated there will be a gas lift meter building on this proposed Oil & Gas Location. Because that is considered a production facility, Noble Energy needs to provide the distance from it to all of the Cultural features listed in the Cultural Setback Distance section of the 2A. Please provide me with these distances and I will add them to the Form 2A.

2) In the Water Resources section you have indicated the nearest downgradient surface water features is greater than a mile. During my review I identified a small pond located approximately 1,950 feet to the north-northwest which appears to be downgradient of this proposed Oil & Gas Location. Therefore, I would like to revise this distance in the Water Resources section.

Please respond to this correspondence by November 24, 2016. If you have any questions, please contact me. Thank you.

Jan,

I have complete my review of the referenced Oil & Gas Location Assessment and have the following comments.

1) In the Facilities section you have indicated there will be a gas lift meter building on this proposed Oil & Gas Location. Because that is considered a production facility, Noble Energy needs to provide the distance from it to all of the Cultural features listed in the Cultural Setback Distance section of the 2A. Please provide me with these distances and I will add them to the Form 2A.

Building: 2887' NW
Building Unit: 2941' NW
HOB: 5280'
DOAA: 5280'
Public Road: 2442' NW
AGU: 2919' NW
Railroad: 5280'
Property Line: 455' S

2) In the Water Resources section you have indicated the nearest downgradient surface water features is greater than a mile. During my review I identified a small pond located approximately 1,950 feet to the north-northwest which appears to be downgradient of this proposed Oil & Gas Location. Therefore, I would like to revise this distance in the Water Resources section.

Yes, please change the distance.

Please respond to this correspondence by November 24, 2016. If you have any questions, please contact me. Thank you.
